DAY 1: Wednesday 16 October 2019

#READY to Integrate HIV and SRHR Services

Overview: Day 1 of the PATA 2019 Summit will provide a regional update against the AIDS Free agenda, highlighting progress and priorities, before focussing on HIV and SRHR service delivery for adolescents and young people. The Africa Café Workshops will showcase examples of HIV-SRHR integration, highlighting models that are both promising and scalable within low-resource clinics in the region. Skills-building sessions will provide opportunities to improve skills in counselling for choice and how to establish and maintain effective safe spaces that recognise adolescents and young people as equal partners in the management of their own health and wellbeing.

DAY 2: Thursday 17 October 2019

#READY to reach and serve all

Overview: Day 2 will begin with a regional overview of the policies, guidelines and legislation that accelerate or hinder HIV and SRHR service access for adolescents and young people. Emphasis on this day will be placed on uncovering our blind spots and exploring strategies that reach and deliver stigma-free gender-sensitive services for the most marginalised young populations. Africa Café Workshops and skills-building sessions will present models and develop skills around creating an enabling, friendly and supportive environment to safeguard the rights of adolescents and young people, and focus on building confidence and resilience among service providers to deliver non-discriminatory services. The day will end in a facilitated panel discussion which brings together themes from the summit's first two days – integrating HIV-SRHR services and reaching and serving all adolescents and young people.

DAY 3: Friday 18 October 2019

#READY for Clinic-Community Collaboration

Overview: Day 3 of the PATA 2019 Summit will provide an overview of progress made against global and regional commitments to community engagement and partnership. Service collaborations between health facilities and their surrounding communities through **clinic-community collaboration (C³)** will be highlighted in the Africa Café Workshops. Skills-building sessions will develop understanding and capacity around how we can use the C³ methodology to improve services for adolescents and young people. The final Lekgotla session will highlight key lessons and service delivery priorities that have emerged across the summit. The evening will celebrate our three days together with a farewell dinner and presentation of the PATA 2019 WOW Awards to acknowledge exceptional service providers.

Paediatric Adolescent  Treatment Africa

PATA believes in the principle of developing sustainable interventions that are receptive to global guidance, linked to national strategic plans, informed by frontline health providers, young people living with HIV and is undertaken in collaboration with local communities.

PATA is an action network of health providers and health facilities in sub-Saharan Africa offering a powerful platform for regional collaboration, capacity building and peer-to-peer exchange. Together we build bridges, and close gaps - linking, learning and building effective clinic-community partnership for improved access to quality HIV service delivery for children, adolescents and young people.

PATA network members are encouraged to reach out to neighbouring facilities and local partners to expand the 'PATA network' and extend the 'PATA effect' through ongoing peer-to-peer and south-to-south learning and exchange.
